DETAILED ACTION

Election/Restrictions

1. Upon initial review of the claims it appears that claims 1-40 differ in subject matter and therefore require a different search. In accordance with this a restriction is deemed proper.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2-12 and 33-40, drawn to a method of displaying a collaboration pane comprising identities, classified in class 715, subclass 751.
 - II. Claims 15-23, drawn to a method of displaying a collaboration pane having the identity of one or more tasks, classified in class 705, subclass 9.
 - III. Claim 24-30 drawn to a method of displaying a collaboration pane having the identity of one or more documents, classified in class 715, subclass 500.
 - IV. Claims 31-32, drawn to a method of displaying a collaboration pane having the identity of one or more links, classified in class 715, subclass 739.
3. Claims 1, 13 and 14 link(s) inventions Group II and Group IV. The restriction requirement between the linked inventions is **subject to** the nonallowance of the linking claim(s), claims 1, 13 and 14. Upon the indication of allowability of the linking claim(s), the restriction requirement as to the linked inventions **shall** be withdrawn and any

Art Unit: 2174

claim(s) depending from or otherwise requiring all the limitations of the allowable linking claim(s) will be rejoined and fully examined for patentability in accordance with 37 CFR 1.104. **Claims that require all the limitations of an allowable linking claim** will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. Amendments submitted after final rejection are governed by 37 CFR 1.116; amendments submitted after allowance are governed by 37 CFR 1.312.

Applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, the allowable linking claim, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. Inventions Groups I, II, III and IV are directed to related processes. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed can have different functions such as assigning a tasks to an individual or group in a business or commercial environment (Group I), displaying documents for editing within a presentation environment (Group II), links are organized into a list for browsing or navigating (Group III), and identifying collaborators for

referencing purposes as well as for security ones. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

5. Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Leonard Hope on 12/8/06 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
